

HOW TO STUDY YOUR BIBLE

- Lesson 6 -

Ice breaker: How have you seen Jesus challenge you as you continue to study scripture?

Follow up: What is something that you have seen the Lord change your perspective on?

Follow the same order as last week:

1. Read through the scripture
2. Observe - what sticks out to you? What do you notice in this passage?
3. Interpret - what was the authors purpose in this passage? What point do you think he is trying to get across to his audience? Why do you think this was written? What does this say about faith and relationship with God?
 - a. Leader tip: This is a good time to remind them it's okay if they don't have the exact answer; the goal is to get them to think deeply about the truths of the passage. They can ask you or they can use a bible resource.
4. Apply - how does this change the way that you live? How does this change the way you view God? How does this change the way you treat others? How do you want to apply these words to your life in the coming week?
5. Connect - how does this passage connect to Jesus and the story of the gospel? How did Jesus reflect this passage in His own life?

Next Steps:

- Have your students spend some time in prayer to ask the Lord to continue to open their eyes to see things the way that He does and to push them closer to His heart and scripture.
- Continue to encourage your students to ask questions while they are reading and to find out those answers by digging deep into scripture and asking for wisdom.
