In verse 11, Paul adds several instructions. What point is he making? Why are these important for the people in a church—then and today? What are the downsides of God’s people being either too busy or too idle? How do you know in your life when you are getting too close to one extreme or the other?

Notice the words “so that” at the start of verse 12; what are the reasons—or benefits—for living in these ways that please God? How can living in this way open possibilities for sharing the Gospel with people you know at work, home, school, etc.?
